PROJECT UPDATE

SEGRO LOGISTICS PARK - NORTHAMPTON GATEWAY

This newsletter is to introduce SEGRO Logistics Park Northampton Gateway and Winvic Construction Ltd who has been appointed to build the development.

SEGRO Logistics Park Northampton Gateway is a large-scale modern logistics park located adjacent to J15 of the M1 with a Strategic Rail Freight Interchange (SRFI) that has been designated as a Nationally Significant Infrastructure Project (NSIP), and has Development Consent Order (DCO) permitting development of up to 5 million sq ft of logistics and warehouse buildings.

The project aims to create in excess of 7,450 jobs and includes:

- A Strategic Rail Freight Interchange
- Up to 5 million sq ft of logistics and warehouse buildings
- An intermodal freight terminal capable of handling trains up to 775m in length
- New road infrastructure and improvements on the A508, A45 and M1 J15
- Extensive landscaping, including new footways and cycleways
- A508 Bypass of Roade village
- Numerous junction improvements on the surrounding road network

Current Activities

Extensive onsite ground investigation and archaeology works are underway and will continue into the new year.

A temporary site entrance off the A508 has been created to provide safe access to the site.

The main infrastructure works are due to commence in January 2021 and will involve the following initial activities:

- Site clearance – this will involve demolition of existing unsafe buildings and removal of vegetation
- Ecological improvements - including hedge translocation and badger sett relocation
- Service location and trial holes – exploratory holes will be dug to identify any existing services such as gas, water, electric and drainage
- Site establishment – this will include setting up the site office and welfare cabins, designated car park with electric charging points for contractors and works vehicles, secure perimeter fencing and signage
- Service diversions – for overhead electrics, gas, water and comms
- Setting up traffic management
- Commence construction of J15 works – initial earthworks involving stripping of topsoil, and cut and fill earthworks
- Earthworks for the distribution building plateaus – this will involve water management operations, stripping of topsoil and cut and fill earthworks

Traffic Information

To protect the workforce, in the first quarter of 2021 there will be some overnight lane restrictions to install safety barriers which will last for approximately 4 weeks.

Towards the end of 2021, there will be increased traffic management to enable the reconfiguration of the junction to be completed and traffic will start to be moved onto the new junction configuration. This will either replace or supplement existing traffic management to ensure that there is a smooth flow and minimise any disruption.

We would like to reassure you that we will work closely with the highways authorities to ensure any disruption is minimised and we will keep you regularly updated of any potential impacts. Highway works have been planned in co-ordination with Highways England and Northamptonshire County Council and will be reviewed on a regular basis during the project.

The scheme will be running concurrently with the Highways England Smart Motorways Project on the M1 between Junctions 13 to 16 – this is a separate scheme running during 2019 through to 2022. The most up to date current and proposed traffic information can be found on the internet at:

www.roadworks.org and www.trafficengland.com

Further information is available from:

PROJECT UPDATE

SEGRO LOGISTICS PARK - NORTHAMPTON GATEWAY

Other Information

The site working hours will be: 7am to 7pm, Mondays to Fridays and 7am to 4pm on Saturdays. In order to minimise disruption to road users, highways works will be carried out outside of these times. Should any highways works be required outside of these hours we will inform you in advance.

Vehicular traffic will be monitored and major deliveries booked in to minimise any disruption.

Site logistic plans will be posted at the front of site and updated within our newsletters.

Noise and Dust monitoring requirements have been agreed with the local authorities and will be monitored throughout the project.

Considerate Constructors Scheme

At Winvic we believe in working closely with the community to minimise any disturbance our works may cause and will be following the codes of practice set out in the Considerate Constructors Scheme [CCS], to which all Winvic projects are entered. This automatically measures how we deal with public questions and complaints.

To find out more visit www.ccscheme.org.uk

A note from the Project Manager, Richard Bark:

"We are committed to working closely with the local community to keep you well informed on the project. We understand that throughout the construction of SEGRO Logistics Park Northampton Gateway, you may have questions regarding activity happening on and around the site so please do not hesitate to get in touch if you have any questions.

We would like to reassure you that we will work closely with the highways authorities to ensure any disruption is minimised and we will keep you regularly updated of any potential impacts."

SEGRO Logistics Park Northampton Gateway Project Website

You can find out more information about the project as well as frequently asked questions on the dedicated website www.slp-ng.com. The website is designed to help you stay up to date with progress and keep you informed of any developments which may impact you.

How to Contact us

We will keep you updated on the status of the works via regular newsletters which will include details of the traffic management and our progress throughout. These newsletters will also be distributed to key stakeholders including local authorities, parish councils and local businesses by email. They will also be available on www.slp-ng.com.

However, should you have any queries or concerns regarding the project or activity happening on and around the construction site, please do not hesitate to contact our construction team directly via Ngw-Enquiries@winvic.co.uk.

For any urgent concerns regarding activity happening on and around the site you can call us on 01604 678960.

Covid-19 Site Operations - Protecting Our Workforce

This site is operated in accordance with our Covid-19 Site Operating Procedures (SOP) which are based on the latest UK Government / Public Health England (PHE) guidance and Construction Leadership Council (CLC) Site Operating Procedures (SOP). These are aimed at protecting our workforce, their colleagues, families and the UK population, by minimising the risk of spread of infection.

In line with Government advice and our own best practice / standards, we are implementing steps to allow work to be carried out safely in a way that observes social distancing guidelines.

Our Site Operating Procedures will remain under continuous review in line with further guidance and direction issued by the UK Government and / or Public Health England.

PROJECT UPDATE

THE WINVIC WAY

RESPECT	Respect for all of our colleagues, regardless of their position in the organisation. Respect for suppliers, communities, the environment – and for our customers. By valuing the opinions and concerns of others our solutions deliver the best outcome for all stakeholders.
LOYALTY	To customers, each other, and our suppliers.
HONESTY	Allows us to tackle difficult conversations constructively. Straight-talking generates trust and helps to solve problems quickly. We keep clients in the picture at all times, so there will be no nasty surprises on cost or delivery.
CHALLENGING/ QUESTIONING	Always asking ourselves if there is a better way. The commitment to continuous improvement underpins our position as industry leaders.

If you would like to forward your input on any aspects of our newsletter or construction activities, please use the space provided and return to: Winvic Construction Ltd, Brampton House, 19 Tenter Road, Moulton Park Industrial Estate, Northampton, NN3 6PZ. Please see our Privacy Policy for details of how we will use the information you provide - this is available on request by emailing marketing@winvic.co.uk. If you would like to 'opt-out' of receiving future newsletters please contact the Project Manager named above or email mail@winvic.co.uk.
